* [redacted] Comment. The loading performance reported was uneven. However, with the exception of 21 October, a Sunday, the number of cars loaded daily continued to be above the daily loading quota. The number of cars claimed by the Soviet occupation power, although decreasing is still exceeding the normal level by 300 percent. Only on 21 October, a Sunday, did the Soviets use fewer cars than normal allotted to them. 50X1-HUM
